

2010

This is the journal of S. Robert Powell for 2010.

There are 1,132 pages in this journal; in the scanned version, 1.93 GB.

For the first time, ever, I scanned the pages in my journal on a regular basis as the year unfolded. At the end of the calendar year, therefore, it was quick work to wrap-up the year. This procedure I will follow in the years ahead.
